 X This rule has an economic impact, as explained below:

Impact of Revisions to Chapter 335-3-8

The amendment of Rules 335-3-8-.39, 335-3-8-.41, 335-3-8-.42, 335-3-8-.43, 335-3-8-.45, 335-3-8-.46, 335-3-8-.48, 335-3-8-.49, 335-3-8-.50, 335-3-8-.51, 335-3-8-.52; 335-3-8-.53, 335-3-8-.55, 335-3-8-.56, 335-3-8-.57, 335-3-8-.58, 335-3-8-.59, 335-3-8-.60, 335-3-8-.61, 335-3-8-.62, 335-3-8-.63, 335-3-8-.65, 335-3-8-.66, 335-3-8-.67, 335-3-8-.68, 335-3-8-.69 and 335-3-8-.70 in Chapter 335-3-8 of the ADEM Administrative Code, will incorporate the revisions to

requirements of federal regulations, as required by the Environmental Protection Agency (EPA). Through the adoption of these regulations, the Alabama Department of Environmental Management is given primacy to implement the regulations at the state level. In the event that these regulations are not implemented by the State, the EPA will implement the requirements on the federal level.

1. NEED/EXPECTED BENEFIT OF RULE:

These revisions are necessary to incorporate EPA's provisions for the control of nitrogen oxide emissions from specified categories of stationary sources as revised on October 26, 2016 (81 FR 74504). EPA has made a finding that 27 States and the District of Columbia contributed significantly to nonattainment of the national ambient air quality standards (NAAQS) for fine particles (PM_{2.5}) and/or ozone in downwind States. EPA expects the benefit of this rule will assist the downwind PM_{2.5} and ozone nonattainment areas in achieving the NAAQS. Moreover, attainment will be achieved in a more equitable, cost-effective manner than if each nonattainment area attempted to achieve attainment by implementing local emissions reductions alone. EPA implemented CSAPR through a Federal Implementation Plan (FIP). As discussed above, adoption of the federal requirements through these regulations will allow the Department to retain State primacy in the implementation and enforcement of the regulations rather than defaulting to regulation by the federal government.

2. COST/BENEFITS OF RULE AND WHY RULE IS THE MOST EFFECTIVE, EFFICIENT, AND FEASIBLE MEANS FOR ALLOCATING RESOURCES AND ACHIEVING THE STATED PURPOSE:

The cost/benefits of this Rule are provided in EPA's regulatory impact analysis and the promulgated Rule in 81 FR 74504.

The costs are equivalent to the cost of compliance with the same regulations implemented by the federal government. Sources of air pollution will be subject to the same requirements for installation of controls to prevent the emissions of air pollution regardless of which agency (state or federal) implements these regulations.

3. EFFECT OF THIS RULE ON COMPETITION:

As stated above, if the regulations are not implemented by the State of Alabama, they will be implemented on the federal level and Alabama companies will be required to comply with the federal regulations and answer directly to the federal Environmental Protection Agency.

4. EFFECT OF THIS RULE ON COST-OF-LIVING AND DOING BUSINESS IN THE GEOGRAPHICAL AREA WHERE THE RULE IS TO BE IMPLEMENTED:

As stated above, if the regulations are not implemented and enforced by the State of

Alabama, they will be implemented on the federal level. Therefore, Alabama companies still would be required to comply with the federal regulations and answer directly to the federal Environmental Protection Agency.

5. EFFECT OF THIS RULE ON EMPLOYMENT IN THE GEOGRAPHICAL AREA WHERE THE RULE IS TO BE IMPLEMENTED:

Adoption of these federally required regulations is not expected to have any effect on the employment in the geographical area in which the regulation would be implemented (State of Alabama).

6. SOURCE OF REVENUE TO BE USED FOR IMPLEMENTING AND ENFORCING THIS RULE:

Moneys from the Federal Grant, and fines and fees collected by the Department will fund the adoption of this regulation. For sources subject to Title V of the Clean Air Act, as amended, fees are collected based on the amount of air pollution emitted annually.

7. THE SHORT-TERM/LONG-TERM ECONOMIC IMPACT OF THIS RULE ON AFFECTED PERSONS, INCLUDING ANALYSIS OF PERSONS WHO WILL BEAR THE COSTS AND THOSE WHO WILL BENEFIT FROM THE RULE:

As stated above, if the regulations are not implemented by the State of Alabama, they will be implemented on the federal level. Alabama companies would still be required to comply with the federal regulations and answer directly to the federal Environmental Protection Agency.

8. UNCERTAINTIES ASSOCIATED WITH THE ESTIMATED BENEFITS AND BURDENS OF THE RULE, INCLUDING QUALITATIVE/QUANTITATIVE BENEFITS AND BURDEN COMPARISON:

No additional burdens are expected as a result of the adoption of these regulations. If the regulations are not adopted by the State of Alabama, they will be implemented on the federal level. Alabama companies would still be required to comply with the federal regulations and answer directly to the federal Environmental Protection Agency.

9. THE EFFECT OF THIS RULE ON THE ENVIRONMENT AND PUBLIC HEALTH:

The effect of the regulation on the environment and public health is addressed in the Federal Register (81 FR 74504), October 26, 2016, that is the basis for these proposed rules.

10. DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE

RULE IS NOT IMPLEMENTED:

The benefits of the proposed regulations have been discussed in the above paragraphs as well as the Federal Register (see No. 9). Through the adoption of these regulations, ADEM will have primacy to implement the regulations at the State level. In the event that the regulations are not adopted at the State level, the requirements will still exist at the federal level. However, it is generally acknowledged that regulations are implemented and enforced in a more effective and efficient manner at the State level than at the federal level.
