## 335-7-4-.10 Completed Project Approval.

- (1) The following information shall be submitted to the Department in electronic format, unless paper format is approved by the Department in advanced, prior to the final inspection:
- (a) A written request to the Department to conduct a final inspection at least two weeks prior to the anticipated date of the final inspection.
  - (b) Water main pressure test results.
- (c) Results of bacteriological analyses from distribution lines and storage tanks. A minimum of one bacteriological sample result will be collected for every 7000 linear feet of water main and on every dead end water line installed.
- (d) All primary and secondary water quality analysis representing treated water from a new source or plant.
  - (e) A completed application for approval to use a well if applicable.
- (2) The following information shall be submitted no later than 60 days after the final inspection:
- (a) Record drawings of all parts of the project included in the project, if required by the Department. For water main installations, the record drawings will be accompanied by valve references. Record drawings submitted in paper format shall be submitted on 11X17 paper or smaller unless approved by the Department in advance.
  - (b) A project completion form signed by the permittee.
- (c) Copies of any forms that require updating with the completion of the project.
- (3) For new surface water treatment plants, the results of plant treatment test must be performed for a minimum of 40 hours, prior to the final inspection. The test must include the operation of all treatment equipment and processes to be used during normal plant operations. The Department may require that the treated water during this test period not enter the distribution system.
