The resident has a right to a dignified existence, self-determination, and communication with and access to persons and services inside and outside the facility. A facility must protect and promote the rights of each resident, specified in 42 CFR 483.10.

(1) Exercise of rights.

(a) The resident has the right to exercise his or her rights as a resident of the facility and as a citizen or resident of the United States.

(b) The resident has the right to be free of interference, coercion, discrimination, or reprisal from the facility in exercising his or her rights.

(c) In the case of a resident adjudged incompetent by a court of competent jurisdiction, the rights of the resident are exercised by the person appointed under State law to act on the resident's behalf.

(2) Notice of rights and services.

(a) The facility must inform the resident both orally and in writing in a language that the resident understands of his or her rights and all rules and regulations governing resident conduct and responsibilities during the stay in the facility. Such notification must be made prior to or upon admission and during the resident's stay. Receipt of such information, and any amendments to it, must be acknowledged in writing.

(b) The resident has the right to inspect and purchase photocopies of all records pertaining to the resident, upon written request and 48 hours' notice to the facility.

(c) The resident has the right to be fully informed in language that he or she can understand of his or her total health status, including but not limited to, his or her medical condition.

(d) The resident has the right to refuse treatment, and to refuse to participate in experimental research.

(e) The facility must:

1. Inform each resident who is entitled to Medicaid benefits, in writing, at the time of admission to the nursing facility or when the resident becomes eligible for Medicaid, of:

(i) The items and services that are included in nursing facility services under the State plan and for which the resident may not be charged.

(ii) Those other items and services that the facility offers and for which the resident may be charged, and the amount of charges for those services; and

2. Inform each resident when changes are made to the items and services specified in paragraphs (e)1.(i) and (ii) of this section.

(f) The facility must inform each resident before, or at the time of admission, and periodically during the resident's stay, of services available in the facility and of charges for those services, including any charges for services not covered under Medicaid and Medicare.

(g) The facility must furnish a written description of legal rights which includes:

1. A description of the manner of protecting personal funds, under paragraph (3) of this section; and

2. A statement that the resident may file a complaint with the State survey and certification agency concerning resident abuse, neglect, and misappropriation of resident property in the facility.

(h) The facility must inform each resident of the name, specialty and way of contacting the physician responsible for his or her care.

(i) The facility must prominently display in the facility written information, and provide to residents and potential residents oral and written information about how to apply for and use Medicare and Medicaid benefits, and how to receive refunds for previous payments covered by such benefits.
