**INTENDED ACTION:** The Alabama Department of Environmental Management proposes to amend rule 335-6-10-.07(1)(d)1.(i), rule 335-6-10-.07(1)(d)1.(ii), rule 335-6-10-.07(1)(d)1.(iii), rule 335-6-10-.07(1)(g), rule 335-6-10 Appendix A, rule 335-6-10-.07(1)(d)2.(ii) and rule 335-6-10 Table 1.

**SUBSTANCE OF PROPOSED ACTION:**

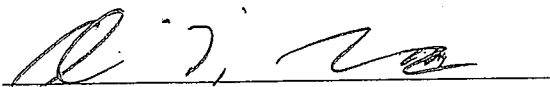

The Alabama Department of Environmental Management proposes to amend rule 335-6-10-.07 by adding a relative source contribution factor to the equations used to calculate human health criteria for non-carcinogen pollutants. The change includes references to this factor in portions of the rule which describe where the different factors used in the calculations were obtained and includes the addition of the relative source contribution factors to Appendix A. Also, in response to a resolution adopted by the Environmental Management Commission on December 14, 2007, the Alabama Department of Environmental Management proposes to amend rule 335-6-10-.07 by changing the risk level used to calculate human health criteria for all carcinogens except arsenic. In addition, the text describing the factors used in Equations 16 and 17 and Equations 18 and 19 is being formatted to provide clarity.
