262-X-4-.03 Contribution To Offense.

(1) Authority:

(a) Code of Ala. 1975, §15-23-12(b) (1995), which provides:

(2) Compensation otherwise payable to a claimant may be diminished or denied to the extent that the economic loss is recouped from collateral sources; or to the extent that the degree of responsibility for the cause of the injury or death is attributable to the victim as determined by the commission.

(a) Compensation may be reduced or denied based on the victim's degree of contribution to the offense. The reduction or denial will be based on the extent of the degree of responsibility for the cause of injury or death attributable to the victim/claimant's actions and/or involvement in the events that led to the crime. Compensation may be reduced in whole or in part if contributory conduct is determined.

(b) Eligibility for compensation can be affected by a victim/claimant's involvement in the events that led to the crime. The victim/claimant's actions do not have to be illegal to be deemed contributory conduct. Such actions must relate significantly to the occurrence that caused the victimization and be such that a reasonable or prudent person would know that the actions could lead to their victimization.

(c) Contributory conduct is a voluntary action by the victim, which directly or indirectly, produced the victim's injury at the time of the victimization which gives rise to the compensation claim. This action may include, but is not limited to, provocation, drug use, alcohol intoxication, consent or incitement by the victim.

(d) Contributory conduct is a factor when the victim knowingly participated in conduct that:

1. Caused, resulted in, or reasonably could have led to the specific crime which caused the victimization; or
2. Was itself clearly wrongful or illegal, thereby placing him/herself in a position to be victimized; or
3. Clearly put himself/herself into a situation where the crime was a reasonably expected and/or a prudent person would have avoided.

(e) Contributory conduct to the offense may be determined by the victim's actions or nature of the victim's involvement in the events leading up to victimization. The following factors may be considered in the determination of contributory conduct:

1. Alcohol intoxication that resulted in the use of poor judgment by the victim;
2. Drug use that resulted in the use of poor judgment by the victim;
3. If the offender verbally insulted the victim and the victim failed to retreat, a contribution factor may be assessed;
4. If it appears the victim was injured as a result of poor judgment or as a result of his/her conduct being less than that of a prudent person in the same situation, a contribution factor may be assessed;
5. If it appears that the victim first physically assaulted the offender, the victim's claim for compensation may be denied.

(f) The Commission may consider all information relevant to the circumstances, including, but not limited to:

1. Level of responsibility of the victim's conduct;
2. Foreseeability of the consequences of such conduct;
3. Ability to avoid the situation (Victim's failure to retreat or withdraw from situation where an option to do so existed.)
4. Whether there is a direct causal relationship between the victim's actions and his/her victimization.
5. Whether the criminally injurious conduct made the basis of the compensation claim occurred at a place known for illegal activity (shot house, house of gambling, house of prostitution or drug house) or arose out of acts

involving violation(s) of federal, state, or municipal laws. A contribution factor shall not be accessed for persons who were in such areas for a legitimate purpose and not involved in any type of illegal activity.

6. Contribution to the offense will be determined by the actions of the victim at the time of or immediately preceding the crime.

(b) The applicant is in fear or danger for his/her life due to his/her victimization; or

A copy of the prescription and the pharmacy's statement of the cost of the drug must be received by the Commission in order for the prescription expense to be considered for emergency payment. Prescriptions for pre-existing medical conditions shall not be considered for reimbursement.

(f) Moving expenses may be considered an emergency service for applicants. Moving expenses may be considered as an emergency expense for applicants who have moved and applicants who have not yet moved. Proof of moving expenses must be received by the Commission for the moving expense to be considered for emergency payment.

The applicant may request in the initial application that consideration be given for an emergency award and provide justification for such award. A decision denying an emergency award shall not be appealable. The amount of such emergency award shall not exceed one thousand dollars. An emergency award shall be deducted from the final compensation made to the applicant. If the final award is less than the amount of the emergency award, the applicant must repay the excess award to the Commission. All emergency awards are subject to the Code of Ala. 1975.
